# Deep Learning NVR Series DVA3221

Brand: Synology Product Code: DVA3221 Availability: 10 Weight: 4.92kg Dimensions: 166.00mm x 250.00mm x 237.00mm Call for Price:

#### Short Description

Synology 4 Bay DVA Deep Learning Video Analytics DVA3221 (Diskless)

#### Description

### **Smarter surveillance**

Combine the comprehensive video management features in <u>Synology Surveillance</u> <u>Station</u> with advanced analytics to speed up incident response and collect better business intelligence.

Bolster the security of your premises while increasing efficiency.

# Versatile monitoring

Watch over your deployment in the way that works best for you.

# Easy deployment

Quickly set up your surveillance system with minimal effort.

# **Advanced analytics platform**

Monitor and secure your premises more effectively with locally processed analytics, ensuring security and confidentiality.

**Deep Learning NVR Series** 

### **People & Vehicle Detection**

Trigger immediate or threshold-based alerts using idle times within defined zones for people or vehicles.

**License Plate Recognition** 

**Intrusion Detection** 

**People & Vehicle Counting** 

# **Congestion Alerts**

**Face Recognition** 

**Face Covering Detection** 

# Flexible monitoring capabilities

Leverage highly configurable options and automation features to act quickly when potentially dangerous situations arise.

#### **Map-supported alerts**

Display real-time previews of detected events on interactive multi-floor and multi-site maps supported by Google Maps and OpenStreetMap.

#### **Automation rules**

Reduce workloads by triggering responses to specific situations, such as activating recording when a microswitch detects a door is opened.

#### Notifications

Specify which events should trigger a notification, and whether to receive alerts by SMS, email, or push notification on mobile devices.

## **Comprehensive access options**

Enjoy a uniform monitoring experience wherever you are and adapt your surveillance

system to your needs — not the other way around.

### **Space-saving installation**

Minimize the footprint of your monitoring setup. The DVA1622's local management capabilities make it an ideal solution for compact home surveillance systems and security kiosks when available space is limited.

### High definition video output

Connect an external display directly to the built-in HDMI port to start monitoring your premises in minutes.

#### Local management

Control your Surveillance Station installation without setting up a dedicated PC by attaching a mouse and keyboard directly to the DVA1622.

### Anytime, anywhere surveillance

Investigate incidents from anywhere to minimize reaction times and take appropriate action faster.

#### **Multi-platform support**

Monitor streams in real time or browse recorded footage seamlessly from browsers, desktop clients, and mobile apps.

#### Monitoring on the go

Install the DS cam app on your iOS and Android mobile devices to always have a monitoring option on hand.

#### Deploy and protect with ease

Get large or multi-site surveillance systems up and running easily while keeping recordings safe from malfunctions and third-party attacks.

#### Wide compatibility

Pick from 8,300+ Synology-validated models or leverage ONVIF support for even more flexibility.

# Multi-site management

Manage fleets of recording servers from a single interface.

# **Granular delegation**

Distribute monitoring and managing privileges flexibly.

#### Software Software Specs
